

AQUBA

bathroom design

AQUBA is an Italian brand of washbasins and pieces of furniture, where Art and Design find their perfect expression.

The texture of the basins can be raw or smooth accordingly to the kind of finishing, creating a sober yet refined impression which, in the You&me collection, is enhanced by the large ceramic drain plug that helps water gently flow like a fountain.

The elegance of the hand-painted ceramic, matched with the minimalism of microresin, creates stylish pieces of furniture, giving to the bathroom an unconventional touch.

Each piece is hand-made and hand-decorated by Master artisans, whose technical and artistic skills contribute to its uniqueness.

The size of the washbasins, as well as the pattern of the ceramic, are customizable according to the customers' needs.

Collections

You&Me quadro

Countertop basins with large interchangeable drain plug, microresin covering

Design **Francesca Maestrelli**

Registered design in the European Union

Loft

Counter-top and free-standing basins, micro cement covering

Design **Ida Micciulli**

pop-up with flex

Cod. SC540

Clic-clac pop-up waste overflow

Cod. SC552

Clic-clac pop-up waste overflow,
square type

Notes

- The ceramic plugs are interchangeable and customizable. They can also be bought separately (more than one per basin) in different colours or patterns. It is recommended to buy also the chrome clic-clac pop-up to be inserted in the drain.
- Being hand-crafted, hand-decorated enamelled terracotta, the plugs can feature little hollows and holes, different shades and imperfections of the painter's brush stroke. These characteristics are not to be considered as flaws. Each plug is different from another, even though it is made in the same colour and decoration, thus confirming the authentic, artisanal nature of the product.
- The washbasins coverings as well are hand-made by skilled craftsmen and hand-applied by decorators. According to the kind of covering, the texture can have irregularities, vibrations in the material, light refraction effects, creating products of great aesthetic impact. The colours in the catalogue photos are only by way of indication.
- Other finish than chrome is available for some of the taps:
RT1017 chrome, brushed nikel, matt black
RTT158 chrome, brushed nikel, matt black
RR1211 chrome, brushed nikel
RS2354 chrome, matt black, glossy black
RK1899 chrome, brushed nikel, matt black

General sale condition

- **PAYMENT:** 50% at the order, balance before delivery. Any cancellation or change to the order won't be accepted after 3 days from the receipt.
- **DELIVERY:** the delivery terms are calculated in working days starting from the signed confirmation proforma and could be rightfully postponed due to client's modifications or other events caused by unpredictable circumstances. Being hand-made products, delivery times are subject to many factors that can delay the predefined terms.
- **GOODS CONTROL:** the package quantities and the integrity of the goods are to be checked at the receipt for possible transport damages. The seller is not responsible after the transport document has been signed.
- **TRANSPORT:** the goods travel at risk and danger of the customer. On request, the seller can deliver the goods by courier. Delivery terms and costs will be communicated to the customer for approval before shipping. The seller is not responsible for possible delays from the couriers.
- **CLAIMS:** possible flaws are to be reported by e-mail within 3 days from the goods receipt, providing detailed descriptions and photos. In no case, claims will be accepted after the product has been installed.
